

Kameda Kyobashi Clinic achieved JCI accreditation in July 2016. JCI recognizes facilities that comply with global standards in patient safety, infection control, and quality improvement across clinical and managerial domains, utilizing over 1,200 criteria.

The goal of the Platinum Cancer Screening is to detect cancer at an early, asymptomatic stage with the highest accuracy and connect patients to appropriate treatment. We understand that language barriers can be a concern. At our clinic, doctors, nurses, technicians, and concierges work closely to ensure seamless communication and compassionate support. If treatment is needed, we promptly refer patients to highly trusted specialists, ensuring access to top-level medical care. As a physician overseeing this program, I am committed to providing personalized guidance so every patient feels confident in choosing Kameda Kyobashi Clinic.

Director, Health Management Center
Chief, Department of Gastroenterology
Chikako Niinami M.D.,Ph.D
